

# Quiz

Let's have a quiz on exception handling!

1

Which of these keywords is not a part of Exception Handling?

2

What output would this program give?

```
using System;

class Program
{
    static void Main(string[] args)
    {
        try
        {
            Console.WriteLine("hello" + " " + "world! " + 1
/0);
        }
        finally
```

```
    {  
        Console.WriteLine("Finished!");  
    }  
}  
}
```

3

What output would this program give?

```
using System;  
  
class Program  
{  
    static void Main(string[] args)  
    {  
        try  
        {  
            Console.WriteLine("hello" + " " + "world! " + 1  
/Convert.ToInt32(0));  
        }  
        catch(ArithmeticException)  
        {  
            Console.WriteLine("Finished!");  
        }  
    }  
}
```

4

What would this program output?

```
using System;

class program
{
    static void Main(string[] args)
    {
        int val = 7;
        int ind = 18;
        int[] arr = new int[17];
        try
        {
            arr[ind] = val;
        }
        catch(IndexOutOfRangeException)
        {
            Console.WriteLine("Index out of bounds!");
        }
        Console.WriteLine("Hello world!");
    }
}
```

5

Which of these keywords is used to manually throw an exception?
