

- Exercise

Let's test our knowledge of request and suppress methods with this exercise.

WE'LL COVER THE FOLLOWING ^

- Exercise

Exercise

Define a class template that can be invoked with an `int` value.

```
OnlyInt(5); // ok
OnlyInt(5L); // ERROR
```

```
#include <iostream>

// your code goes here

int main() {
    // test it here
}
```

The solution can be found in the next lesson.
