

Fix the Flavors: Exercise

Using lenses, write a point-free solution to manipulate and return everyone's favorite ice cream.

You're having fun with these exercises, so let's start manipulating data!

Using lenses, write a point-free solution that

1. Capitalizes all the flavors
2. Appends "IS A GREAT FLAVOR" to each one
3. Returns them

Here's the end result we're looking for

index.js

employees.json

```
import employees from './employees.json';

const result = emphasizeFlavors(employees);

console.log({ result });
```

I'll see you in the solution review!

index.js

employees.json

```
import { } from 'ramda';
import employees from './employees';
```
