## Coding Challenge #3: Array Maximum

In this coding exercise, you will take an array of numbers and find the element having maximum value among those values in the array.

## WE'LL COVER THE FOLLOWING ^

- Problem Statement
  - Input
  - Expected Output
- Coding Exercise

## Problem Statement #

Write a program that creates an array of following elements, then returns the maximum element in the array.

Input #

```
values = [3, 11, 7, 2, 9, 10];
```

**Expected Output** #

11

## Coding Exercise #

```
function maxElement(values){
  var max = values[0];
  // Write - Your - Code
  return max;
}
```
