Quiz

It's quiz time! Test yourself by solving these questions about binary trees.

What is the total number of edges from a particular node to its deepest descendant in a tree?

Fill in the blank: A binary tree in which every node has either 0 or 2 children is called ______.

The Level Order Traversal is a type of depth-first traversal.

What is the output of the following code?

```
tree = BinaryTree(12)
tree.root.left = Node(32)
tree.root.right = Node(37)
tree.root.left.left = Node(24)
tree.root.left.right = Node(5)
tree.root.right.left = Node(100)
tree.root.right.right = Node(75)
print(tree.print_tree("postorder"))
```
