Exercise 1

Suppose the following array is given:

```
array = [ 7, 15, 32, 9, '3', '11', 2 ];
```

Determine the output printed to the Javascript console.

All questions are part of the same program. Each instruction in every question is in sequence with the previous instructions.

1

```
console.log( array[3] );
```

2

```
console.log( array[7] );
```

```
console.log( array.pop() );
console.log( array );
console.log( array.shift() );
```

console.log(array);

```
console.log( array.push( 6 ) );
console.log( array);
                        Check Answers
```

Run the code below to confirm the solutions:

```
let array = [ 7, 15, 32, 9, '3', '11', 2 ];

console.log( array[3] );
console.log( array[7]);
console.log( array.pop() );
console.log( array );
console.log( array shift() );
console.log( array push( 6 ) );
```

console.log(array);
