Exercise 2: Handle an `OverflowException`

Exercise on handling a OverflowException using `Convert.ToDouble`.

Problem Statement

Go through the documentation of ToDouble class in `System.Format`, you'll learn that `ToDouble` can throw a `FormatException` or an `OverflowException`.

Your exercise is to throw an `OverflowException` and properly handle it.

Write your code below. It is recommended that you try solving the exercise yourself before viewing the solution.

Good Luck!

Exercise | Solution

```
using System;

class Program{

  public static void Main(){
    //Write your code here
  }

}
```
