Coding Challenge #4: Variable Swapping

This little coding exercise is to teach you how to swap values between variables.

Problem Statement

Observe the following program and add the necessary code to swap the values of variables number1 and number2.

> This exercise has several valid solutions. You may use more than two variables to solve it.

Coding Exercise

```
let number1 = 5;
let number2 = 3;

// TODO: type your code here (and nowhere else!)

console.log(number1); // Should show 3
console.log(number2); // Should show 5
```
