Cheapest Item: Exercise

Write a point-free function to return a cart's cheapest item.

Given a cart, return the cheapest item's name.

Usage

```
const cheapestItem = getCheapestItem(cart); // 'apple'
```

Your solution must be point-free.

index.js

cart.js

```
import {} from 'ramda';
import cart from './cart';

const getCheapestItem = () => {};
```
